**Quality Tools for Smart Cleaning**

# ERGOTEC<sup>®</sup> NINJA

ErgoTec Ninja is Unger's premium range of sophisticated tools, developed by experienced Unger engineers to meet the requirements of professional window cleaners for quality and performance.

Every product within the ErgoTec Ninja range is loaded with features to help you achieve outstanding cleaning results with minimum effort.

Only the highest quality materials have been used to ensure the best performance.

## UNGER ERGOTEC NINJA HANDLE 40°

- Ergonomic handle with 180° swivel
- Perfect for working on telescopic poles
- TriLoc mechanism for secure hold of the channel
- Fits securely to poles with ErgoTec locking cone
- Use with Ninja Channels

CODE	CARTON
UNEN000	5

## UNGER NINJA CHANNEL WITH SOFT RUBBER

- Squeegee channel is constructed from aircraft grade aluminum - will not break or bend
- Flexible rubber positioning allows for a lower position (for shorter channels) and a higher position (for longer channels)
- Revolutionary SmartClip end clips are durable and eliminate the need for separate brass or plastic clips

### UNGER PRO SQUEEGEE HANDLE

- Solid handle design – lighter and stronger than brass
- Quick release clip for fast and easy channel change
- Non slip rubber grip fits comfortably in the hand
- Fits securely to poles with ErgoTec locking cone
- Use with S-Channel and S-Channel Plus

CODE	CARTON
UNPR000	10

### UNGER ERGOTEC SQUEEGEE HANDLE

- New handle with optimised s-spring
- Quick and easy channel change
- Non slip moulded rubber grip fits comfortably in the hand
- Fits securely to poles with ErgoTec locking cone
- Use with S-Channel and S-Channel Plus

CODE	CARTON
UNETG00	10

**NEW**

### UNGER S-CHANNEL PLUS WITH SOFT RUBBER

- Sturdy and durable stainless steel channels, complete with EasyGlider soft rubber
- Curved ends of the channel support the rubber for improved cleaning close to glass frames
- Use with Unger ErgoTec and Pro stainless steel handles – no end clips required when using with these handles

Unger OptiLoc Poles provide safety at the highest level.

Each OptiLoc extension pole comes fitted with Unger's famous ErgoTec locking cone. Compatible with all Unger tools, this unique design prevents tools from falling off the pole when working at any height.

Anti-slip end caps prevent the pole from sliding when put down and also protects the pole from damage.

#### UNGER OPTILOC EXTENSION POLES

- Professional quality aluminium extension poles - Made in Germany
- Ergonomic, two component handles offer excellent grip, even with wet hands
- Includes ErgoTec locking cone
- Anti-slip protective end cap

##### 2 section poles:

CODE	SIZE	CARTON

UNED900	9M/30'	10*

\*can break carton

#### UNGER CRANKED JOINT PLASTIC

- Adjust tools to clean at any angle up to 300°
- Tools quickly attach to adapter
- Fits any Unger OptiLoc pole

CODE	CARTON
UNCJN00	5

#### UNGER ERGOTEC LOCKING CONE

- Quick and easy tool change via release button
- Ensures safe working at heights

CODE	CARTON
UNNCAN0	5

**UNGER STARDUSTER PIPE BRUSH**

- Bendable 27cm/11" curved brush for cleaning pipes and other round surfaces
- Made with heavy duty wire and polypropylene bristles

CODE	CARTON
UNPIPE0	5

**UNGER STARDUSTER WALL BRUSH**

- Oval shape wall brush for ceiling fans, walls and ceilings
- Made with heavy duty galvanized wire and 49% horsehair bristle
- Ideal for dusting rough surfaces, removing cobwebs and dust from flat objects

CODE	CARTON
UNWALB0	5

**UNGER FIXI CLAMP**

- Adjustable plastic clamp firmly holds tools like brushes, sponges and cloths
- Fits onto all Unger telescopic poles

CODE	CARTON
UNFIXI0	5*

\*can break carton

**UNGER BUCKET-ON-A-BELT**

- Carries all the tools you need, including a washer, two squeegees, a safety scraper and cleaning liquid
- Leaves hands free for cleaning and prevents having to climb up and down ladders to wet washers
- Order belt (UNUB00) separately

CODE	CARTON
UNBB01	1

**UNGER THE BELT**

- Solid nylon belt for attaching bucket (UNBB01) and other tools on a belt
- Convenient loops for tools
- Clip lock for quick fastening
- Adjustable length

CODE	CARTON
UNUB00	1

#### UNGER ERGOTEC NINJA SCRAPER 10CM

- Angle of the scraper head can be switched from straight to 30°
- Safe and easy blade change
- Fits securely to poles with ErgoTec locking cone
- Premium stainless steel blade

#### UNGER ERGOTEC NINJA 10CM SCRAPER AND HOLSTER COMBO

- Durable solid plastic holster with stainless steel insert withstands frequent contact with sharp blade
- Protects users from cuts
- Holster secures the scraper and prevents it from falling out

#### UNGER PREMIUM GLASS SCRAPER BLADES STAINLESS STEEL 10CM - 25PK

- Dual sided sharp blades made from rust resistant 440A grade stainless steel which provides excellent edge retention and ensures that blades stay sharp
- Compatible with most 10cm/4" scrapers

CODE	CARTON

**UNGER BLACK SERIES POWER LIQUID 1L**

- Professional window cleaning soap with high productivity (concentrate 1:100)
- Power formula with ultimate cleaning power for streak free results

CODE	CARTON
UNFR10S	12

**UNGER RUB OUT STAIN REMOVER 500ML**

- Professional glass cleaner for removing hard water stains, rust, mineral deposits, lime scale and soap scum
- Scrub stains without harming surface
- Can be applied with a microfibre cloth

CODE	CARTON
UNRUB20	12

nLITE®

## Pure Water System

What is pure water?

It's water in its purest form, physically processed to remove the minerals that would otherwise lead to limescale spots and streaks.

Such impurities are referred to as TDS (total dissolved solids) and are measured in ppm (parts per million). The water is considered 100% demineralised (pure) when TDS is 0ppm.

Pure water contains phenomenal cleaning power, without using any chemicals whatsoever. One step cleaning with pure water means there is no need to wipe and polish the glass. The pane dries streak free and without mineral deposits. It is twice as quick as traditional glass cleaning and significantly improves the cost calculations.

Applied with an Unger nLITE water fed pole system, pure water is a fast, safe and effective method of cleaning, especially at height.

Typical applications for Pure Water cleaning include window and facade cleaning as well as cleaning of solar panels.

**nLITE®**

## Pure Water System

**EASY:**

Easy to operate with simple resin changes

**FAST:**

Twice as fast as traditional glass cleaning

**COST-SAVING:**

Half the labour costs with no need for renting additional equipment such as scissor lifts

**NO CHEMICALS:**

Complete glass cleaning without any chemical cleaning agents

**SAFE:**

Safe working from the ground up to 6th floor heights without the use of ladders, cherry pickers or scissor lifts

**A**

The new nLITE system is Unger's most advanced telescopic pole system. Ultra light materials make work considerably easier. The innovative pole shape provides users a precision grip.

The new DuroFlex hose is easily integrated inside the pole for trouble free operation.

**B**

Unger deionisation(DI) filters utilise exchange resin which removes ionised salts and impurities from water, producing 100% deionised water, with zero waste water.

Easily portable, with no need for power or pumps, Unger DI filters can be set up anywhere with access to tap water.

Available in two sizes.

#### UNGER nLITE CARBON COMPOSITE TELESCOPIC POLES

- Telescopic poles for small to medium heights (up to 10m/approx. 2 storeys)
- Resilience: 100 gigapascal (GPa)
- Unique pole shape offers precision grip
- Integrated hose management
- Smartlock clamps can be opened and closed with just one finger
- Extension stops prevent pulling the pole sections out too far

# nLITE®

## Pole Selection

It's critical to choose the correct nLite pole for your cleaning application. The maximum height you need to clean is the first consideration.

For instance, if you clean windows up to 20m height, nLite Ultra HiMod Carbon pole is the only solution for cleaning at those heights.

Likewise, you should consider the time you will spend cleaning. For prolonged usage, a lighter pole will be easier to use and reduces user fatigue.

	ALUMINIUM	CARBON COMPOSITE	CARBON 24K	ULTRA HIMOD CARBON
CLEANING HEIGHT	Up to 6m/1 storey	Up to 10m/2 storeys	Up to 16m/4 storeys	Up to 20m/6 storeys

The rinse bar on nLITE Powerbrushes delivers pure water outside the brush. This is perfect for pre and post wash rinsing of glass, surrounding frames or facades.

nLITE Powerbrushes feature a swivel action to allow the most precise clean ever, allowing the user to clean into edges and corners with ease.

Simply apply the swivel lock on the brush when the swivel action isn't needed.

# HYDRO POWER® ULTRA

Unger HydroPower Ultra DI filters utilise ion exchange resin to remove ionised salts and impurities from water, producing 100% deionised pure water with zero waste water.

HydroPower filters feature a mobile design for portability and require no power or water pumps, just a standard water outlet.

The latest Unger HydroPower Ultra filters and resin packs offer 30% more pure water than previous generation filters.

Onboard TDS meters allow users to continually monitor the purity of the water being filtered. Once particles per million (ppm) reaches 10 on the TDS, its time to change the filter.

Filter changes are a quick and easy process with Unger HydroPower Ultra filters. Each filter has a preportioned amount of Unger's premium ion exchange resin so filter swaps are quick, clean and easy.

High quality metal water connections ensure reliability and are suitable for most common water connections.

## UNGER HYDROPOWER ULTRA FILTER S - 6 LITRE

- Over 30% more pure water per resin filling than previous generation filters
- FloWater technology ensures an efficient flow of water through the whole tank for optimum resin use
- Preportioned resin packs
- Integrated TDS meter

CODE	CARTON
UNDIUH1	1

## UNGER REVERSE OSMOSIS SYSTEM DELIVERS AN ECONOMIC SOLUTION FOR PURE WATER CLEANING IN AREAS WITH HARD WATER

Unger's new RO-S HydroPower Reverse Osmosis (RO) system delivers maximum pure water cleaning at minimum operating cost, especially in areas with hard water.

Unger's RO technology uses a three stage filtration process to provide 0ppm pure water. This water is pressurised by a high quality, stainless steel pump.

The RO-S system's boost function provides a strong water stream of unfiltered mains water to prewash heavily soiled or horizontal surfaces before pure water cleaning commences.

Featuring a compact and rugged design, the RO-S system is easy to transport.

**NEW**

# HydroPower RO-S System

## Boost mode

- Pure Water Mode: 200L/hr of pure water at 4 bar pressure for spotless cleaning of windows and facades
- Boost Mode: 1,000L/hr of tap water at 8-10 bar pressure for pre-washing heavily soiled surfaces

## Easy to use

- Total Dissolved Solids (TDS) meter displays the output water at the touch of a button

## Easy to use

- Manual flushing of the RO membrane for an increased working life
- Automatic shut-off function protects the pump in case water supply is interrupted

## 3-Stage filtration

1. Combi pre-filter to capture chlorine and sediments
2. Premium RO membrane to remove dissolved minerals
3. DI polisher to filter any remaining impurities, delivering 100% pure water

## Powerful, high quality pump

- Centrifugal pump provides constant high water flow
- Stainless steel for maximum life and trouble free use

## Easy to transport and maintain

- Compact unit, made from high quality materials
- Durable stainless steel quick-release connectors
- Heavy duty stainless steel frame with solid, maintenance-free wheels for easy transportation and operation
- Pre-filter and DI polisher are easy to change

# PRICE ON APPLICATION

Quality Tools for Smart Cleaning

# Stingray Indoor Glass Cleaning

Interior surfaces of glass are usually not as dirty as the exterior windows exposed to the environment.

Unger's Stingray system offers the most efficient solution in the field of interior glass cleaning.

Unger Stingray has an intensive cleaning TriPad with integrated spraying mechanism to clean glass and other hard surfaces in a one step process. Cleaning solution is contained within the Tripad, ensuring no drips and runs when cleaning.

The modular pole system can be easily and safely extended to ensure a safe working range, up to 5 metres.

#### ERGONOMIC:

Reduces bending and stretching for users

#### FAST:

Faster than traditional glass cleaning

#### SAFE:

Perfect for daytime cleaning with no drips and runs
